

The HART of Jesus Medical Clinic

“As each has received a gift, use it to serve one another, as good stewards of God's varied grace”

-1 Peter 4:10

In the remote mountains of the St. Jude community, there is no access to medical care.

These impoverished people makes less than \$150 per year. They cannot afford to travel to see a doctor or buy medicine.

In January 2020, our hearts were called by the Holy Spirit to start a medical clinic at St. Jude. Months later, the world was struck by the devastating COVID virus. Our brothers and sisters in Haiti were hit harder than most.

Dr. Pierre examines child

With the guidance and oversight of Father Roosevelt, pastor of St. Jude, the doors of The HART of Jesus Medical Clinic opened in January 2020 and have remained open during the pandemic.

With their generous love, Dr. Pierre and Nurse Olivia, our Haitian partners, are treating our brothers and sisters of St. Jude.

Led by the Holy Spirit and God's Grace, HART has provided medical care for over 1,400 over patients in the past year at no cost to them.

Close to 500 of these patients were precious children of God ranging from 0-10 years old.

Without this clinic, they would not have received any medical treatment.

Nurse Olivia does intake

Over the course of the last 12 months:

- 1,469 patients were seen
- 3,100 medications were dispensed
- 3308 diagnoses were treated: infections, malnutrition, hypertension, injuries, prenatal conditions, and many others
- many were provided with specialty follow-up
- 8 babies were delivered

Patrick gathers info and takes prayer requests

Most importantly,
we have collected hundreds of
prayers for the specific needs of the
individuals who come to the clinic.

We are blessed with the opportunity
to pray to the Lord for each of them
by name.

Every month requests pour in. They
range from a single mom of 6 asking
God to provide sustenance for her
children...to a 79 yr. man asking for 3
more days to live because he has
more to accomplish.

Many of them pray for HART and
that HART is able to continue care
for their community.

We are always looking for
prayer warriors to help us.

Click here to partner with us and sign up for a
prayer opportunity.

HART's future goals for the clinic:

Medical:

- Continue to provide medical care through the loving hands of Dr. Pierre and Nurse Olivia
- Start a prenatal clinic
- Expand the diagnostic capabilities
- Provide more comprehensive medical care

Education:

- Provide preventive health education for the community

Faith:

- Grow in relationship with our brothers and sisters through personal prayer
- Create opportunities for them to expand their relationship with God both personally and in faith community.

Please help us make these goals a reality! We ask that you pray for those who come to the clinic and all who work there. If your heart is moved to help us monetarily, we ask that you consider one of the following opportunities:

\$35 provides 5 safe birthing kits for the doctor and midwife

\$50 allows us to care for 10 patients

\$320 provides medications for one month

\$680 provides for doctor, nurse, and medical aides for one month

\$1000 runs the clinic for a month

\$2500 purchases a new ultrasound machine for the prenatal clinic
